March 18, 2019

Math

* I can compare a statistical questions vs. a non-statistical question.

*I can identify a statistical question and the amount of data it will generate.

*I can describe a set of data based on its mean, median, mode(s) and range.

*I can analyze different types of graphs to find out if the mean , median, mode and range is a better representation of the data.

There will be a 5-a-Day homework assignment to be done each night.

Science

*I can ask questions about how humans impact the biosphere to evaluate cause and effect relationships.

*I can analyze and interpret data about how humans impact the biosphere to explain cause and effect relationships.

*I can obtain, evaluate, and communicate information about human impact on the biosphere highlighting cause and effect relationships.

Vocab assignment due Tuesday.

Science note: When PowerTest review becomes available again, students will have an opportunity to raise their Biome test grade by completing test corrections. The system has been down and it is being addressed.

Important Dates

Mar. 25-29 Spring Break

Apr. 2 Spring Pictures

Apr. 19 No School

April 23 No School For Students

Upcoming Assessments

March 18- Science Quiz

April 2- Math CUA12

Reading/Language Arts

This week we will focus on writing and how to cite evidence to Compare and Contrast Two Text Pieces to Support the Central Idea. Below are the Clear Targets that we will focus on this week.

*I can analyze a short story by activating prior knowledge and using text clues to infer information on the story.

*I can analyze a Narrative text so that I can trace the topics the author uses to develop their central idea.

Social Studies

The Standards for this Coming Week:

*6.60 Explain how the geographical location of ancient Rome contributed to the shaping of Roman society and the expansion of its political power in the Mediterranean region and beyond.

*6.61 Explain the rise of the Roman Republic and the role of mythical and historical figures in Roman history, including Romulus and Remus, Hannibal and the Carthaginian Wars, Cicero, Julius Caesar, Augustus, Hadrian, Aeneas, and Cincinnatus.

*6.62 Describe the government of the Roman Republic and its contribution to the development of democratic principles, including the rule of law (a written constitution), separation of powers, checks and balances, representative government, and civic duty.

*6.63 Describe the influence of Julius Caesar and Augustus in Rome's transition from a republic to an empire and explain the reasons for the growth and long life of the Roman Empire.

- military organization, tactics, and conquests and decentralized administration

-the purpose and functions of taxes

-the promotion of economic growth through the use of a standard currency, road construction, and the protection of trade routes

-the benefits of a Pax Romana
